RADIOBIOLOGY**

October 15–16
2010

Gomel, Republic of Belarus, 2010

Dear colleagues!

We invite you to participate in the International Scientific Conference “Modern Problems in Radiobiology”. The conference will take place at October, 15–16, 2010 in the Institute of Radiobiology of National Academy of Sciences of Belarus.

The Conference is devoted to discussing of topical questions, current state and tendencies of radiation biology and radioecology development.

The scientific program of conference:

- Medical and biological aspects of radiation exposure
- Radiation security and regulation
- Radiation biochemistry and molecular biology
- Radiation genetics
- Radiation immunology and hematology
- Ways of low doses and low powers ionizing radiation influence
- Radiation biophysics and dosimetry
- Biological indicators of low doses ionizing radiation
- Radiation biology of non-ionizing radiation. Biological effects and regulation
- Radiation protection and modification of radiation effects
- Radioecology
- Joint effects of radiation and other environmental factors
- Theoretical problems in radiobiology. System radiobiology
- Radiation biology and radioecology education
