## IRPA13 Glasgow - Radiating Success!

### Re-Opening of Abstract Submission

We are very pleased to announce that over 1150 abstracts have already been accepted for the IRPA13 Congress in May 2012. We have however become aware that there are still colleagues who would like to submit further abstracts, and hence share their experience and knowledge with the international community. To meet this demand we are re-opening the abstract submission system immediately, and it will remain open until 29 February 2012. Since the selection of oral presentations has already been completed, any new abstract submissions can only be considered for poster presentation. We hope to be able to confirm acceptance within two weeks of abstract submission.

Delegates are also reminded that the Congress can offer bursary support to selected delegates. Applications must be made via the website [[www.irpa13glasgow.com](http://www.irpa13glasgow.com) - click *Registration*, click *Bursary Applications*]. In addition to the normal bursary funding we have been fortunate to secure special funding for delegates with a specific interest in the transport of radioactive material. Applications should be made via the website as above.

- Additional Poster Abstracts **must** be submitted by 29 February 2012
- Authors will be notified of acceptance within two weeks of submission
- Full papers and poster PDFs **must** be submitted by 12 March 2012
- Presenting author registration by 12 March 2012

Living with Radiation - Engaging with Society
